

Hydronic Omnipanel Accessories

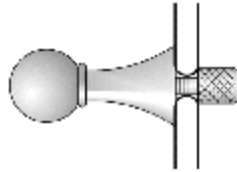

ACCENTS: available in brass, chrome, painted or combination finishes, accents easily snap onto the panels.

A. ACCENT
(for 24" wide Omnipanels only)

B. ACCENT WITH ROBE KNOBS
(for 24" wide Omnipanels only)

C. PULL-OUT DRYING RACK:
Utilizing a spring action mechanism, it attaches wherever there is a missing panel. Available in 20", 24" and 30".

D. ROBE KNOB:
Available in polished brass, chrome or painted finish, robe knobs attach between panels.

Optional Control Accessories:

All valves come in two configurations -- angled (piped out from the wall) and straight (piped up from the floor).

SHUT-OFF VALVES
Shut-off valves allow the advantage of isolating the units from the rest of the system .

CONTROL VALVES
A control valve allows you to control the temperature of the individual radiator.

THERMOSTATIC CONTROL
By adding the thermostatic sensor to the control valve, the temperature is maintained automatically rather than manually.
